DECLARATION OF JOHN G. RAUCH

**Mailstop: Petitions
Commissioner for Patents
P.O. Box 1450
Arlington, VA 22313-1450**

The undersigned hereby states as follows:

1. The above-identified application was filed in the United States Patent and Trademark Office by the firm of Brinks, Hofer, Gilson, and Lione on January 20, 2004.

2. The application as filed included checks for \$946 and \$40; a Transmittal letter, in duplicate; a 64-page application; 27 sheets drawings; a Declaration; two identical CD-roms containing computer source code; a Permit to File Abroad; Assignment Recordation Sheet; an Assignment; a preliminary amendment; and a postcard evidencing receipt.
3. Attached hereto as Exhibit 1 in support of this declaration are copies of the Transmittal letter, a return receipt postcard filed with the application on January 20, 2004. No items listed on the return receipt postcard have been crossed out, indicating that all items were received by the USPTO. The postcard further indicates that serial number 10/761,772 was assigned to the application.
4. Prior to mailing the application, I had the CD Roms prepared with electronic files provided to me by an inventor of the application. I instructed a member of the Brinks Hofer Gilson & Lione Information Services Department to burn a CD Rom with the files as they were stored on the firm's computer system. I requested preparation of three copies, two for filing in the USPTO with the application and one as a file copy.
5. After the CD Roms were prepared, I prepared the preliminary amendment and the patent application transmittal which listed the file names, sizes and creation dates for the files. As part of this process, I examined each CD Rom and confirmed that all of the files listed were present on each disc. I made this confirmation by loading each of the three discs in the drive on my desktop workstation and viewing the contents of the disc. The

files on each disc at the time of filing of the application matched the files listed on the transmittal and on the preliminary amendment.

6. This declaration, and accompanying petition and supporting materials are being timely filed in response to the Notice of Omitted Items dated April 19, 2004.
7. I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge and belief.

Date: 6/18/04
